

SCIENTIFIC PAPERS
By Nicholas Ionescu-Pallas
Mathematical and Physical Sciences

I (1956- 1960)

1. Non-Additive Composition of the Volumes in a Non-Reactive Mixture (in Romanian). Studii și Cercetări de Fizică, Tom VII, nr. 2, 1956, pp. 285-290 {Submitted for publication on 22-nd Nov. 1955}.
2. Asymptotic Properties of Real Gases and Their State Equation (in Romanian), Studii și Cercetări de Fizică, Tom VII, nr. 3, 1956, pp. 463-478 (Submitted for publication on 4-th April 1956). (Work Awarded at a Symposium of the Students' Debating Circle in May, 1954).
3. On Pure Vibrational Spectra of Diatomic Molecules with Homoeopolar Bond (in Romanian). Studii și Cercetări de Fizică, Tom VIII, nr. 2. 1957, pp. 107-111.
4. On the Entropy of Gaseous Mixture (in Romanian). Studii și Cercetări de Fizică, Tom VIII nr. 4. 1957, pp. 457-467 (Communicated at the Scientific Session of the Institute of Physics of the Romanian Academy on 26-th June 1957).
5. On the Hyperfine Structure of the (Atomic) Mercury Line HgI 5461 Å by Ion Agârbiceanu, Nicholas Ionescu - Pallas and Vasile Drăgănescu, Revue de Physique (Bucharest). Tom II. nr. 2, 1957. pp. 233-241 (Communicated at the Scientific Session of the Institute of Physics of the Romanian Academy on 26-th June 1957).
6. Sur la structure hyperfine de la raie HgI 5461 Å, Note de M Ion Agârbiceanu, Nicolas Ionescu Pallas et Vasile Draganescu, transmise par M. Jean Cabannes. Comptes rendus des séances de l'Academie des Sciences, Paris, t. 205. pp. 1054 - 1056. Séance du 23 sept. 1957,
7. La svstématique des déplacements isotopiques pour les atomes lourds. Note de M. Nicolas Ionesco-Pallas, présentée par M. Louis de Broglie (séance du 10 dec. 1958), Comptes rendus des séances de l'Academic des Sciences, t. 248, pp. 199 - 202, séance du 12 Janv. 1959.
8. About the μ -Meson Spin from Ionization Bursts Data, bv Ion X. Ion, Nicholas J. Ionescu - Pallas and Constance Potoceanu (Institute of Atomic Physics of the Romanian Academy, Bucharest), (ricevuto il 3 nov. 1958), II Nuovo Cimento, Serie X, Vol. 11, pp.' 507 - 524, 1959 Febbraio.

9. On the (State) Equation of the Debye Crystals (in Romanian), Studii și Cercetări de Fizică, Tom X, nr.1, 1959, pp. 75-78 (Work submitted for publication on 26-th Sept. 1958).
10. Isotope Shift and Fermi-Segrè Formula, by N. J. Ionescu – Pallas (Roumanian Institute for Atomic Research), Progress of Theoretical Physics (Tokyo), Vol. 21, nr.4, April. 1959, pp. 655-656 (Letter to the Editor received January 22, 1959).
11. A new Derivation of the Schmidt Formula (Relativistic Fine Structure Correction; in Romanian), Studii și Cercetări de Fizică, Tom X, nr. 4, 1959, pp.639-642.
12. A Mono-isotopic (Spectral) Lamp Using Hg 198 (in Romanian) by Ion Agarbiceanu, V. Draganescu (and) Nicholas J. Ionescu – Pallas, Studii și Cercetări de Fizică, Tom 10, nr. 2, 1959, pp.345-368 (Scientific note).
13. The Resonant Transfer of Charge and the Kinetics of Ions (in Russian), by Ion Popescu Iovitzu and Nicholas J. Ionescu – Pallas, Journal of Technical Physics (Sankt Petersburg), Tom XXIX, nr. 7, 1959, pp.866-876.
14. On Resonant Charge Transfer for Positive Ions, by I. Popescu Iovitzu (Gaseous Electronics Laboratory, C.I.Parhon University, Bucarest) and Nicholas J. Ionescu – Pallas, (Institute of Atomic Physics of the Romanian Academy, Bucharest), Proceedings of the Physical Society (London), Vol. LXXV, pp. 807-809, 1960 (received 12-th August, 1959).
15. Nuclear Magnetic Moments (Derived) from Hyperfine Structure Data, The Physical Review (USA), Vol.117, nr.2, pp. 505-510, Jan.15, 1960 (received, June 1, 1959).
16. The Nuclear Compressibility (Derived) from Isotope Shift Data by Nicholas J. Ionescu – Pallas, (Institute of Atomic Research, Bucharest), Il Nuovo Cimento, Serie X, Vol. 15, pp. 323-333, 1960 (received 20-th June, 1958).
17. Selective Filling of the Zeeman Levels in the Atoms of the Alkali Metals, Studii și Cercetări de Fizică, Tom XI, nr.3, 1960, pp. 585-596 (in Romanian) and Revue de Physique, Tom V, nr. 3-4, 1960, pp. 325-336, (in Russian).
18. Détermination du moment magnétique nucléaire de ^{199}Hg en partant de la structure hyperfine de la raie $\text{Hg } 5461\text{\AA}$, note de MM. I. Agarbiceanu, N. Ionesco-Pallas, V. Draganescu, N. Comaniciu, et. V. Tatu, présentée par M. Gustave Ribaud, Comptes Rendus des séances de l'Académie des Sciences, Paris, Tom 250, 1960, pp. 317-318.

II (1961 -1965)

19. Theory of isotope Shift in Heavy Atoms, *Annalen der Physik (Leipzig)*, Vol. 8, nr. 1-2, 1961, pp. 9-27 (received 18-th Aug. 1960).
20. Deriving the Nuclear Magnetic Moment of the Mercury 199 Isotope from the Hyperfine Structure of the Line Hg 5461Å by Ion Agârbiceanu, Laurentiu Blanaru, Vasile Drăganescu, Nicholas J. Ionescu-Pallas, Nicolae Comaniciu and Vasile Tatu (in Russian), *Journal of Optics and Spectroscopy (Moscow)*, Tome 10, nr. 3, 1961, pp. 297-300.
21. Calculating the Effective Quantum Numbers of Heavy Atoms (in Romanian), *Studii și Cercetări de Fizică*, Tom XII, nr. 3, 1961, pp. 613-623.
22. Contributions à la théorie statistique des noyaux lourds, *Revue de Physique*, Tom VI, nr. 4, 1961, pp. 441-455.
23. Electronic Wave Function in the Neighbourhood of Nucleus (in Romanian), *Comunicările Academiei Republicii Populare Române*, Tom 11, nr. 10, 1961, pp. 1155-1161 (Communication presented by Acad. Șerban Țiteica, in the Session on 6-th May 1961).
24. Relativistic Extensions of the Hyperfine Structure (in Romanian), *Studii și Cercetări de Fizică*, Tom XIII, nr. 1, 1962, pp. 101-104.
25. Theory of Second Order Isotope Shift, *Annalen der Physik (Leipzig)*, Tome 10, nr. 3-4, 1062, pp. 121-140, (received 13-th Dec. 1961).
26. Su una nuova dimostrazione della variazione della massa in rapporto alla velocità, Nota di Nicolas Jean Ionescu-Pallas, presentata dal Socio B (runo) Finzi. Accademia Nazionale dei Lincei, Rendiconti della Classe di Scienze fisiche, matematiche e naturali, Serie VIII, vol. XXXIII, fasc, 5, Nov. 1962, pp. 289-291.
27. Peuplement sélectif des niveaux de Zeeman dans les atomes alcalins II, par Nicolas Ionesco-Pallas et George-Victor Velculescu, *Revue de Physique*, Tom VIII, nr. 1, 1963, pp. 47-58.
28. Conséquences dynamiques de la relativité, *Revue de Physique*, Tom VIII, nr. 3, 1963, pp. 309-337.
29. On a Certain 5-Dimensional Extension of the Relativistic Physics (in Romanian) by H(arry) Hafner and N.J.Ionescu-Pallas, *Studii și Cercetări de Fizica*, , Tom XIV, nr. 3, 1963, pp. 277-287.
30. Sul concetto di Massa nella teoria della relatività, Nota di Nicolas Ionescu-Pallas, presentata dal Socio B (runo) Finzi. Accademia Nazionale dei Lincei, Rendiconti della Classe di Scienze fisiche, matematiche e naturali, Serie VIII, vol. XXXIV, fasc, 4, Aprile 1963, pp. 403-406.

31. The Doppler-Fizeau Effect (in Romanian), Studii și Cercetări de Fizică, Tom XIV, nr. 6, 1963, pp. 857-866 (Work of Synthesis including some original elements).
32. **Estimation of Nuclear Distortion from Isotope Shift Data, Physics Letters (Amsterdam), Vol. 6, nr. 1, 15 Aug., 1963, pp. 93-94.**
33. On the Principle of the Light Velocity Constancy in Special Relativity (in Romanian) Note by H(arry) Hafner and N.J. Ionescu-Pallas, Studii și Cercetări Științifice, Fizică și Științe Tehnice, Acad. R.P.R., Filiala Iași, Tom XIV, nr. 1, 1963, pp. 193-197.
34. **Contributions a l'étude des Lasers aux gas, par I. Agârbiceanu, A. Agafitei, L. Blănaru, N.J.Ionesco-Pallas, I.M.Popescu, V.Vasiliu et V.G.Velculescu** (An abstract of the work was published in the Proceedings of the 3-rd International Conference on Quantum Electronics, Paris, February, 1963).
35. On a (Certain) Extension of Electrodynamics and Mechanics in a 5-Dimensional Space (in Romanian) by H(arry) Hafner and N.J. Ionescu-Pallas, Studii și Cercetări de Fizică, Tom XIV, nr. 6, 1963, pp. 797-804.
36. Classical Motion of Particles in Arbitrary Tensorial Fields, Studii și Cercetări de Fizică, Tom V, nr. 2, 1964, pp. 133-140 (in Romanian) and Revue Romaine de Physique, Tom 9, nr. 2, 1964, pp. 191-199, (in Franch).
37. Une nouvelle méthode d'évaluation semi-classique des phases de diffusion, Revue Roumaine de Physique, Tom 9, nr. 9, 1964, pp. 837-844.
38. **Inverting the population of (Atomic) Levels in Gaseous Media (in Russian)** by Nicholas Ionescu-Pallas and George-Victor Velculescu, Revue Roumaine de Physique, Tom 9, nr. 6, 1964, pp. 623-627 and Journal of Optics and Spectroscopy (Moscow), Tom XVII, nr. , 1964, pp. 139-141 (received, 13-th August, 1963).
39. The hyperfine and isotopic structure of the (Atomic) Barium BaI Line 5535 Å (in Russian) by V. Drăganescu, N. Comaniciu, V. S. Tatu, and N. J. Ionescu-Pallas, Journal of Optics and Spectroscopy (Moscow), Tom XVI, nr. 2, 1964, pp. 182-186.
40. **Quantum States of a Relativistic Rotator, by H(arry) Hafner and N.J. Ionescu-Pallas, Acta Physica Austriaca, Vol. XVIII, nr. 1, 1964, pp. 38-41.**
41. The Scale of Absolute Temperatures and the Concept of Absolute Zero (in Romanian), Revista de Fizică și Chimie, Seria A, Vol. 1, nr.11, Nov. 1964, pp. 438-442 (Synthesis).
42. **Theory of Mesic Atoms, Annalen der Physik (Leipzig), Vol 15, nr. 3-4, 1965, pp. 144-149.**
43. New Aspects Concerning the Connection between Physics and Geometry (in Romanian) by H(arry) Hafner and N.J. Ionescu-Pallas, Revista de Fizică și Chimie,

Vol. II, nr. 7, Iulie 1965, pp. 241-250 (A synthesis of some original works, exploring the consequences of postulating a bi-dimensional space of time. A non-conventional tachionic approach avant la lettre).

III 1966 – 1970

44. Scalar Interaction and Conformal Space, by H(arry) Hafner and N.J. Ionescu-Pallas, Acta Physica Austriaca, Tome XXI, nr. 3, 1966, pp. 290-295 (Received December 7, 1964).
45. Analysis of a Complex Gamma Spectrum, by Constantza Ionescu and N.J. Ionescu-Pallas, Revue Roumaine de Physique, Tome 11, nr.4, 1966, pp. 349-356.
46. Mouvement d'une particle à spin $\frac{1}{2}$ dans un champ central arbitraire à spin entier. Note de M. Nicolas J. Ionesco-Pallas, transmise par M. Horia Hulubei, Comptes rendus Acad. Sciences, Paris, Tom 262, 18 avril 1966, pp. 1029-1031 (séance du 14 mars 1966).
47. Semi-Classical Evaluation of some Atomic Quantities, Revue Roumaine de Physique, Tome 11, nr. 5, 1966, pp. 359-367.
48. Détermination des moments quadrupolaires intrinsèques du Baryum par des mesures de déplacements isotopiques. Note de M.M. Nicolae Comaniciu, Vasile Drăganescu, Nicolae Ionescu-Pallas et Vasile Tat, transmise par M. Horia Hulubei, Comptes rendus Acad. Sciences Paris, tom 262, 16 mai 1966, pp. 1355-1358 (séance du 18 avril 1966).
49. La théorie améliorée de la structure hyperfine, Note de M. Nicolas Ionesco-Pallas, transmise par Horia Hulubei, , Comptes rendus Acad. Sciences Paris, tom 263, 11 juillet 1966, pp. 99-102 (séance du 13 juin 1966).
50. Explicit Formulas for Atomic Lifetimes, Revue Roumaine de Physique, Tome 11, nr. 7, 1966, pp. 643-647.
51. Isotope Shifts and Intrinsic Deformations in Ba, by N. Comaniciu, V. Drăganescu, Nicolae Ionescu-Pallas and V. Tat, Revue Roumaine de Physique, Tome 11, nr. 8, 1966, pp. 669-676.
52. Introductory Chapters of Tensor Algebra and Some Physical Applications (in Romanian) by H(arry) Hafner and Nicholas Ionescu-Pallas, Revista de Fizică și Chimie. Seria A, Vol. IV, nr. 3, Martie 1967, pp. 88-103 (Synthesis).
53. Relativistic Wave Equation for Plane Motion, Revue Roumaine de Physique, Tome 12, nr. 4, 1967, pp. 327-336 (Dedicated to the 70-th Birthday Anniversary of Professor Horia Hulubei).

54. Propriétés globales des noyaux déduites de déplacements isotopiques et structures hyperfines, par Nicolas Ionesco-Pallas (Journées nucléaires Franco-Roumaines, Mai 1967, Bucharest, FR 67/Ph F-3 , 6 pag.).
55. Study of the Characteristics of a Fabry-Perot Etalon with the Aid of a Laser, by Vasile Drăgănescu, Anton Manolescu, Virgil Vasiliu and Nicholas Ionescu-Pallas, Revue Roumaine de Physique, Tom 12, nr. 8, 1967, pp. 739-743 (Communication at the International Congress on Laser Applications, Paris, 18-23 July, 1967) (Work dedicated to the 60-th Birth day Anniversary of Professor Ion Agârbiceanu).
56. **Relativistic Schrödinger Equation for a Particle with Arbitrary Spin** by Nicholas J. Ionesco-Pallas, **Journal of the Franklin Institute**, Vol. 284, nr. 4, Oct. 1967, pp. 243-250 (and Preprint, Inst. Atomic Phys., Theor. Phys., 65, 1968), (Work appreciated by Gerard Pétiau).
57. Approssimazione della funzione di errori, a cura di Nicolas J. Ionescu-Pallas, Preprint, Institute for Atomic Physics, Theoretical physics, 64, 1967, 11 pages.
58. Specific Mass Effect in Atoms with Two Valence Electrons, Revue Roumaine de Physique, Tome 12, nr. 8, 1967, pp. 733-738 (Dedicated to the 60-th Birthday Anniversary of Professor Ion Agârbiceanu).
59. **Optical Methods in Nuclear Physics, Lectures held at the Institute of Atomic Physics, Second Division (Radiation and Plasma), Laboratory A, by Nicholas J. Ionescu-Pallas, (1967, May-July, 76 pag., Manuscriptum)**
 - 1) Classical Theory of the Hyperfine Splitting
 - 2) Hyperfine Interaction Energy and the Equations of the Spining Electron
 - 3) Dirac Equation and the Hyperfine Structure
 - 4) Zeeman Effect
 - 5) Calculating the Radial Integrals
 - 6) Spin-Orbit Coupling
 - 7) Magnetic Interaction of Intermediate Intensity
 - 8) Spin Reversal
 - 9) Magnetic Resonance for Arbitrary Spin
 - 10) Bloch-type Resonance
60. Approssimazione della funzione di Laguerre a cura di Nicolas Ionescu-Pallas, Preprint, Institute for Atomic Physics, Theor. Phys. 71, 1968, 6 pag.
61. Going over from Classical to Quantum Mechanics I, (in Romanian), Studii și Cercetări de Fizică, Tom 20, nr. 3, 1968, pp. 215-220.
62. A Relativistic Wave Equation for $\frac{1}{2}$ Spin Particle, Revue Roumaine de Physique, Tome 13, nr. 5, 1968, pp. 461-469.
63. Electrodynamics of Moving Bodies and the Relativity Theory (in Romanian) Preprint, Institute of Atomic Physics, Theor. Phys., 72, 1968, 20 pag. (A

resistivity 4-vector is introduced. See also : Self-consistent representations of the Electromagnetic Field, Studii și Cercetări de Fizică, Tom 24, nr. 9, 1972, pp. 1043-1059).

64. On the Complete Solving of the Gibbs Paradox, (in Romanian), Studii și Cercetări de Fizică, Tom 20, nr. 9, 1968, pp. 927-933, (The Printing without change of a work written in 1957).
65. Search for a Fundamental Wave Equation, Revue Roumain de Physique, Tome 13, nr. 9, 1968, pp. 811-813, (A non-linear extension of the Relativistic Schrödinger Equation for Arbitrary Spin, of the Heisenberg type, is proposed in view of explaining some inner symmetries of matter. Communication held at the Symposium for Quantum Electrodynamics in Cargèse (Corsica) on July 10, 1967).
66. Obtaining Neutrons by Releasing the Deuterium Synthesis Reaction with the Aid of a Giant Pulse Laser (in Romanian). Preprint, Institute of Atomic Physics, Nuclear Reactions, 26, 1968, 9 pag.
67. Going over from Classical to Quantum Mechanics II, The spin Concept (in Romanian), Studii și Cercetări de Fizică, Tom 20, nr. 10, 1968, pp. 1045-1057.
68. Going over from Classical to Quantum Mechanics III, The relativistic Theory of the Irreducible Spinors (in Romanian), Studii și Cercetări de Fizică, Tom 21, nr. 1, 1969, pp. 9-20.
69. Going over from Classical to Quantum Mechanics, IV, The Energy Concept, (in Romanian), Studii și Cercetări de Fizică, Tom 21, nr. 2, 1969, pp. 121-126.
70. Nuclear Models (in Romanian), Revista de Fizică și Chimie, Seria A, Tom VI, nr. 4, Aprilie 1969, pp. 121-125 (Synthesis).
71. Contributions to Isotope Shift Theory in Atomic Spectra by Nicholas J. Ionescu-Pallas (Dissertation for obtaining the Doctor's Degree in Physical Science, under the leadership of Prof. Ion Agârbiceanu, C.M.A.) Preprint, Institute of Atomic Physics, 1969, 60 pag. +11 fig., (Work shared in two parts, having 6 and 7 sections respectively).
72. Relativistic Schrödinger Equation for a Particle with Arbitrary Spin II, Preprint, Institute of Atomic Physics, Theor. Phys., 75, 1969, 18 pag. (See also : Revue Roumaine de Physique, Tome 18, nr. 4, 1973, pp. 419-436) (Work appreciated by Fred Hoyle and Jayant V. Narlikar).
73. Introduction in Modern Theoretical Mechanics, Academic Press, Bucharest, 1969, 234 pag. (in Romanian), (English Summary, 100 Bibliographical Quotations, 3 Chapters having 12 paragraphs each of them).

- 8 -
74. Estimating the Quantum Penetrabilities, by Nicholas Ionescu-Pallas, Institute for Atomic Physics, Bucharest, Proceedings of the International School on Nuclear Theoretical Physics, Predeal Romania, 1969, September, pp. 555-561.
 75. **Almost Classical Wave Equation, Revue Roumain de Physique, Tome 14, nr. 9, 1969, pp. 895-902** (Dedicated to the 70-th Birthday Anniversary of Prof. Theodor V. Ionescu).
 76. Déplacements isotopiques de l'étain dans l'ultraviolet, Note de M.M. Vasile Tatu et Nicolas Ionescu-Pallas, présentée par M. Horia Hulubei, Comptes Rendus Acad, Sciences Paris, Serie B, tom 269, 17 Nov. 1969, pp. 1045-1048.
 77. Red Shift and Epochs in a Generalized Friedman & Lemaître Cosmology, Revue Roumaine de Physique, Tome 14, nr. 10, 1969, pp. 1105-1109, (Dedicated to the 70-th Birthday Anniversary of Prof. Alexandru Sanielevici).
 78. **Fundamentals of Macroscopic Electrodynamics I, (in Romanian), Revista de Fizică și Chimie, Seria A, vol. VI, nr. 12, 1969, pp. 455-470.**
 79. **Fundamentals of Macroscopic Electrodynamics II, (in Romanian), Revista de Fizică și Chimie, Seria A, vol. VII, nr. 11, 1970, pp. 419-428.**
 80. Generalizing the Dirac Equation, Revue Roumaine de Physique, Tome 15, nr. 3, 1970, pp. 397-401.
 81. Entering upon the Spinor Concept from a Vectorial Standpoint, Revue Roumaine de Physique, Tome 15, nr. 5, 1970, pp. 593-601.
 82. (Improved) Least Square Method, (in Romanian), Studii și Cercetări de Fizică, Tom 22, nr. 5, 1970, pp. 579-582.
 83. Contributions to the Isotope Shift Theory in Atomic Spectra (in Romanian), by N.J.Ionescu-Pallas, (Summary of the Dissertation), Institute for Atomic Physics, Magurele, 1970, (9 pages of text + 8 pages Addenda + 2 figures in folio).
 84. Recent Achievements in the Relativistic Quantum Mechanics of Spin Particles (in Romanian) Progresele Științei (Acad. RSR) Tom VI, nr. 5, Bucuresti, Mai 1970, pp. 193-198.
 85. The Effects of the Mass Isotope Shifts (in Romanian), Studii și Cercetări de Fizică, Tom 22, nr. 8, 1970, pp. 897-934 (A monographic study with many original contributions).

1971 – 1975

86. Improved Theory of Nuclear Compressibility and Its Applications to the Isotope Shifts Problem, *Revue Roumaine de Physique*, Tome 16, nr. 1, 1971, pp. 3-10, (See also: *Proceedings of the Symposium on Atomic Spectroscopy*, Hannover, 14-th July, 1970).
87. Fundamentals of Macroscopic Electrodynamics III, (in Romanian), *Revista de Fizică și Chimie*, Seria A, vol. VIII, nr. 3, 1971, pp. 95-106.
88. 5-Dimensional Relativity (in Romanian) by Nicholas Ionescu Pallas and H(arry) Hafner, *Studii și Cercetări de Fizică*, Tom 23, nr. 6, 1971, pp. 623-636 (Cyclicity condition of the 5-th time-like coordinate is adopted for recovering the Lorentz-covariance).
89. Axiomatic Approach of the Two-Body Problem within the Invariantive Mechanics (in Romanian), by Liviu Sofonea and Nicolae Ionescu-Pallas, *Studii si Cercetari de Astronomie*, Tom 17, nr. 1, 1972, pp. 53-69.
90. Estimating the Coulombian Transparency as a Temperature Function in an Infinite Plasma with Point-like Deuterons, by Nicholas Ionescu-Pallas and Ion N. Mihailescu, *Revue Roumaine de Physique*, Tome 17, nr. 3, 1972, pp. 393-397 (Letter to the Editor).
91. Symmetrical Theory of Electricity and Magnetism, *Revue Roumaine de Physique*, Tome 17, nr. 3, 1972, pp. 269-279 (Derivation of the Maxwell Eqs. coming from the interaction between electric currents).
92. Tchebysheff-type Formulas for Lorentz and Gauss Convolutions (in Romanian) *Studii și Cercetări Matematice*, Tom 24, nr. 9, 1972, pp. 1413-1420.
93. Generalized Riemann Coefficients, by N.J.Ionescu-Pallas, E(lena) Cojocaru and V(ictor)-G(eorge) Velculescu, Preprint Institute of Atomic Physics, Bucharest, Computation Division, 14, 1972, 3 pag.
94. Selfconsistency of the Relativistic Representations of the Electromagnetic Field (in Romanian) by Nicolae Ionescu-Pallas and Liviu Sofonea, *Studii și Cercetări de Fizică*, Tom 24, nr. 9, 1972, pp. 1043-1059.
95. Heuristic Methods for Introducing the Concepts of the Classical Mechanics (in Romanian), *Revista de Fizică și Chimie*, Seria A, vol. IX, nr. 9, Sept.1972, pp. 325-331, (an original approach).
96. Hyperfine Structures and Isotope Shifts in Atomic Spectra (in Romanian), by N. Comaniciu, V. Drăganescu, N. J. Ionescu-Pallas and V.(S) Tatu, Institute of Atomic

Physics, Bucharest,, Revista de Fizică și Chimie, Seria A, vol. IX, nr. 10, Oct. 1972, pp. 382-393.

97. Inertia Center Motion of an Aggregate of Point-like Particles in Analytical Mechanics, **Revue Roumaine de Physique, Tome 18, nr. 1, 1973, pp. 123-128.**
98. Plausible Statements (put forward) for Building up the Wave Functions of Atoms with a Single Valence Electron (in Romanian), **Studii și Cercetări de Fizică, Tom 25, nr. 2, 1973, pp. 167-182,** (Work since about 1968).
99. The Lagrangean Aspect of the Onicescu Invariantive Mechanics by Liviu Sofonea and Nicholas Ionescu-Pallas, **Revue Roumaine de Physique, Tome 18, nr. 3, 1973, pp. 293-311.**
100. **Relativistic Schrödinger Equation for a Particle with Arbitrary Spin II, Revue Roumaine de Physique, Tome 18, nr. 4, 1973, pp. 419-436,** (Dedicated to Prof. Serban Titeica on the occasion of his 65-th Birthday Anniversary).
101. Invariantive Properties of the Electromagnetic Field (in Romanian), by Nicholas Ionescu-Pallas and Liviu Sofonea, **Studii și Cercetări de Fizică, Tom 25, nr. 4, 1973, pp. 447-470.**
102. **On the Invariant Mechanical Structure of the Expanding Universe, Revue Roumaine de Physique, Tome 18, nr. 5, 1973, pp. 671-676,** (Communicated on 11-th May 1973, to the Section for Physical and Mathematical Sciences of the Romanian Academy).
103. Mathematical Processing of Empirical Data. Integrations and Convolutions, (in Romanian), **Studii și Cercetări de Fizică, Tom 25, nr. 5, 1973, pp. 563-582.**
104. **Coulombian Transparency in a Hot Infinite Deuterium Plasma, Accounting for the Finite Size of the Deuterons, by Ion N. Mihailescu and Nicholas Ionescu-Pallas, Revue Roumaine de Physique, Tome 18, nr. 6, 1973, pp. 793-798.**
105. **Theoretical Study on the Spectral Line Widths, (in Romanian), Studii și Cercetări de Fizică, Tom 25, nr. 8, 1973, pp. 891-895** (Work dating since about 1966).
106. The Nuclear Model of a Liquid Droplet (in Romanian), **Revista de Fizică și Chimie, Seria A, Vol. X, Nr. 9, Sept. 1973, pp. 321-325,** (Work dating since about 1968).
107. **Mass Variation in Terms of Velocity in the Framework of Quantum Mechanics, Studii și Cercetări de Fizică, Tom 25, nr. 10, 1973, pp. 141-146.**
108. **Elements of Theoretical Mechanics – Classical and Relativistic (in Romanian) Fascicle 1 of the Course on Laser Physics held at the Institute for**

Atomic Physics, Plasma & Radiation Division, May 1973, 50 pages (Preprint Institute for Atomic Physics).

109. **Elements of Thermodynamics and Statistical Physics (in Romanian) Fascicle 2 of the Course on Laser Physics held at the Institute for Atomic Physics, June 1973, 70 pages (Preprint Institute of Atomic Physics).**
110. A Solvable Case of Resonant States (in Romanian), Revista de Fizică și Chimie, Seria A, Vol. XI, Nr. 1, Jan. 1974, pp. 21-23, (Work dating since about 1968).
111. A Geometrical Interpretation of Steady State Cosmology, by Harry Hafner and Nicholas Ionescu-Pallas, Revue Roumaine de Physique, Tome 19, nr. 1, 1974, pp. 105-106, Work dating since about 1970).
112. Field Theory and Invariantive Mechanics, by Liviu Sofonea and Nicholas Ionescu-Pallas, Revue Roumaine de Physique, Tome 19, nr. 2, 1974, pp. 121-135.
113. Spin-Dependence of Nuclear Forces, (in Romanian) Studia Universitatis Cluj, Series Physica, Fasciculus 2, 1974, pp. 77-83, (Work dating since about 1968).
114. **Macroscopic Picture of Laser Produced Plasma, Revue Roumaine de Physique, Tome 19, nr. 3, 1974, pp. 305-327.**
115. **Irrational Motion of a Hot Unsteady Plasma by Nicholas Ionescu-Pallas, Rodica Alexandrescu, Monica Covaciu (Dumitras), Elena Cojocaru, Ion Mihăilescu, Ioan M. Popescu and George-Victor Vucleescu, Revue Roumaine de Physique, Tome 19, nr. 3, 1974, pp. 365-367, (Work dating since about 1972).**
116. **Elements of the Theory of Electricity, Magnetism and Light, (in Romanian) (Fascicle 3 of the Course in Laser Physics), 1974, May-June, 185 pages, Preprint Institute for Atomic Physics, Bucharest – Magurele.**
117. Research on the Relativity Theory (Carried out) in Romania, (in Romanian) Progresele Stiintei, nr. 6, 1974, pp. 301-313.
118. Elements for the Theory of Thermal Radiation, (in Romanian), (Fascicle 4 of the Course on Laser Physics), 1974, July, 70 pages, Preprint Institute for Atomic Physics, Bucharest – Magurele.
119. **Elements of the Mechanics of Continuous Media, (in Romanian) (Fascicle 5 of the Course on Laser Physics), 1974, September-October, 80 pages, Preprint Institute for Atomic Physics, Bucharest .**
120. **The Mach's Principle within Cosmological Models with (Space-Time) Positive Curvature (Cosmologia Varadiensis), Communication held at the National Colloquium on Astronomy and Astrophysics, Oradea, 12-th October 1974, (The main results included in the book General Relativity and Cosmology, Bucharest, 1980).**

121. Invariant Structure of Physical Systems and the Classical and Quantum Properties of the Electromagnetic Field, by Nicholas Ionescu-Pallas and Liviu Sofonea, *Fundamenta Scientiae*, No. 41, Université Louis Pasteur, Strasbourg, France, 1975, (Colloque "Une demi-siècle de Mécanique Quantique, 2-4 Mai, 1974.
122. Energy Balance in a Two-Temperature Deuterium Plasma, by Nicholas Ionescu-Pallas, Mihai Vișinescu and Ion-Andrei Dorobantu, *Revue Roumaine de Physique*, Tome 20, nr. 1, 1975, pp.43-49.
123. Déduction des Transformations de Lorentz et Einstein a l'aide des concepts de distance et durée par H(arry) Hafner et N(icolas) Ionesco-Pallas, Preprint, Institute for Atomic Physics, Theoretical Physics, 111, 1975, 10 pages (work elaborated in 1970).
124. Relativistic Time Operator Conjugated to the Hamilton Operator, by E(rhardt) Papp and Nicholas J. Ionescu-Pallas, *Revue Roumaine de Physique*, Tome 20, nr. 3, 1975, pp.299-301.
125. Schwarzschild Invariant and Its Dynamical Consequences by N(icholas) Ionescu-Pallas and H(arry) Hafner, *Revue Roumaine de Physique*, Tome 20, nr. 7, 1975, pp.751-754 (Communication held at the Seminary of Theoretical Physique of the Henri Poincaré Institute, Paris, invited by Prof. Gerard Petiau, on 13-th January 1971).
126. Contributions to the Isotope Shift Theory in Atomic Spectra (in Romanian) (Summary of the Dissertation, *Studii și Cercetări de Fizica*, Tom 27, nr. 8, 1975, pp. 773-786.
127. Vectorial-Tensorial Conservative Theory of Gravitation by Cleopatra Mociutchi and Nicholas Ionescu-Pallas, *Revue Roumaine de Physique*, Tome 20, nr. 9, 1975, pp. 967-974.
128. Evolutive Mechanics – a New Attempt for Understanding the Structure of the (Physical) Universe, by Nicholas Ionescu-Pallas, Communication held on 17-th December 1975, at the Division for Physical Sciences of the Romanian Academy.
129. The Gravitation Theory of Eduard Milne – Achievements and Failures, (in Romanian), *Studii și Cercetări de Fizică*, Tom 27, nr. 10, 1975, pp. 999-1019, (Final form of a critical study on Kinematic Relativity, initiated as early as 1958, with many original aspects).
130. Octav Onicescu – Invariantive Mechanics and Cosmology (Academic Press, 1974, 102 pag., in Romanian), Review by Nicholas Ionescu-Pallas, *Studii și Cercetări de Fizică*, Tome 27, nr. 10, 1975, pp. 1071-1076 (Critical entering upon, pointing out the non-conventional defining of the mass center).

131. Elastic Wave Propagation through Viscous Material Media, by Nicholas Ionescu-Pallas. Communication at the 4-th National Conference on Mechanics, Bucharest, 19-th Dec. 1975.

1976 – 1980

132. **Analogy between Electrodynamics and Gravitation**, Revue Roumaine de Physique, Tome 21, nr. 3, 1976, pp. 281-287 (Communication held at the Division for Physical and Mathematical Sciences of the Romanian Academy, on 23-rd November 1973).
133. **Evolutive Mechanics**, Revue Roumaine de Physique, Tome 21, nr. 10, 1976, pp. 1065-1086.
134. The Concept of Force and the Formalization of Non-Quantum Mechanical Theories, by Nicholas Ionescu-Pallas and Liviu Sofonea, Foundations of Physics (U.S.A.), Vol. 6, nr. 5, Oct. 1976, pp. 589-597, (Work elaborated in 1974).
135. New Results in the Problem of Matter Stability (in Romanian), Buletin de Informare, Comitetul de Stat pentru Energia Nucleară, Anul II, nr. 7-9, 1976, p.18 (Exact expression of the Lagrange Function for a Two-Body Electrodynamic Aggregate is obtained. Result included in the book General Relativity and Cosmology, 1980).
136. **Invariant Structure of the Photon**, by Nicholas Ionescu-Pallas and Liviu Sofonea, Revue Roumaine de Physique, Tome 22, nr. 4, 1977, pp. 405-425, (Work appreciated by Prof. Gérard Pétiau).
137. Géométrisation des théories physiques. Le formalisme complex-vectoriel, par Nicolas Ionesco-Pallas et Liviu Sofonea, Colloque National de Géométrie et Topologie, Université de Timișoara, Comptes rendus 26-28 Avril 1977, pp. 135-148, (See also: Analele St. ale Univ. Alex. I. Cuza; Iași, Supl. 2-a Tom XXVII, s. I-a, 1981, pp. 29-36. Work dedicated to the late Prof. Mendel Haimovici).
138. Cosmological Model with Massive Scalar Field as Backgraund, by Nicholas Ionescu-Pallas and Ioan Gottlieb, Abstracts of Contributed Papers, 8-th International Conference on General Relativity and Gravitation, University of the State Ontario, Waterloo, Ontario, Canada, p. 194.
139. Some Cosmological Consequences of Modelling the Repulsive Forces by a Maxwell-like Tensor, by Nicholas Ionescu-Pallas and Liviu Sofonea, 8-th Intern. Conf. Gen. Rel. & Gravit., University of the State Ontario, Waterloo, Ontario, Canada, p. 195.

140. **Time-depending Perturbations and the Two-Photons Absorption**, by Nicholas Ionescu-Pallas and Jean Maurer, *Studii și Cercetări de Fizică*, Tom 29, nr. 8, 1977, pp. 779-790, (Work elaborated in 1974).
141. Using a He-Ne Laser for Monitorizing the Excavation Works on Curved Trajectories, (in Romanian) by Virgil Vasiliu, Nicholas Ionescu-Pallas, Zinca Maris, Victor-George Velculescu, and Radu Fornoga, Scientific Session "Physics versus Industry", organized by the Central Institute of Physics, in the framework of the Festival "Song of Praise for Romania", 5-6 Dec. 1977, (Preprint LOP-51, I.P.T.R.D., Sept. 1984).
142. Le statut géométrique et physique de l'espace Euclidien, par Nicolas Ionesco-Pallas et Liviu Sofonea, *Travaux du Colloque National de Géométrie et Topology de l'Université de Timișoara*, 26-28 Apr. 1977, pp. 111-133.
143. Contributions to Cosmological Models Based on Robertson & Walker Metric by Nicholas Ionescu-Pallas and Liviu Sofonea, Preprint University of Timișoara, Faculty of the Sciences of Nature, Section of Physics, (U.T.F.T.2/1978) 15 pages.
144. Introduction de quelques constantes fondamentales par de considerations mécaniques, par Liviu Sofonea et Nicolas Ionesco-Pallas, *Revue Roumaine de Physique*, Tome 23, nr. 3, 1978, pp. 257-267.
145. **Schrödinger – Pauli Wave Equation without Approximation**, by Nicholas Ionescu-Pallas, Jean Maurer, Dragoș Popa and Oana Bârnă, *Revue Roumaine de Physique*, Tome 23, nrs. 7-8, 1978, pp. 727-742 (Communication held at the Section for Mathematics and Physics of the Romanian Academy, on 12-th June 1974), Dedicated to the 70-th Birthday Anniversary of Prof. Șerban Țiteica.
146. **Invariantive Approach to Analytical Mechanics of Point-like Bodies**, by Nicholas Ionescu-Pallas, *Revue Roumaine de Physique*, Tome 23, nr. 9, 1978, pp. 955-977 (Communicated at the Symposium "Centennial Anniversary of the Teaching of Mechanics in Higher Education Institutes in Bucharest", 22-nd April, 1978).
147. Some Formal and Physical Analogies between the Analytical Mechanics with Euclidean Representation ("Invariantive" Mechanics) and the Analytical Mechanics with Riemannian Representation (General Relativity) by Nicholas Ionescu-Pallas and Liviu Sofonea, International Congress of Mathematicians, Helsinki, Finland, 1978, (Abstracts of Short Communications and Poster Sessions, p. 185).
148. Variational Principles of Mechanics. Information and Entropy by Nicholas Ionescu-Pallas and Liviu Sofonea, in the book "Theory of Systems" (Work of the National Conference on System Theory, University of Brașov, 2-3rd December 1977), Brasov University, 1978, pp. 52-57 (See also: *Analele St. ale Univ. Alex. I. Cuza, Iași*, Supl. la Tom XXVII, s. I-a, 1981, pp. 179-183. Work dedicated to the late Prof. Mendel Haimovici).

149. Geometrizing the Gravitation with the Aid of a Scalar Field, by Nicholas Ionescu-Pallas and Liviu Sofonea, *Analele Științifice ale Universității Alex. I. Cuza, Iași*, (Serie Noua), Sect. I, b), *Fizică*, Tom XXV, 1979, pp. 7-12.
150. Deuterium-Deuterium Cross-Sections for Thermonuclear Synthesis, *Revue Roumaine de Physique*, Tome 24, nrs. 3-4, 1979, pp. 421-422, (Dedicated to the 80-th Birthday Anniversary of Prof. Theodor V. Ionescu), (Communication held at the Symposium "Physics and Energy", Institute of Nuclear Power Reactors, Pitesti-Colibasi, 23-24-th Oct. 1978).
151. Static Solutions and Poincaré Pressure in relativistic Theory of Gravitation, *Revue Roumaine de Physique*, Tome 24, nr. 9, 1979, pp. 853-871, (Dedicated to the 70-th Birthday Anniversary of Prof. Valeriu Novacu).
152. **New Approach of Gravitation and Cosmology, by Nicholas Ionescu-Pallas and Liviu Sofonea, Revue Roumaine de Physique, Tome 25, nr. 1, 1980, pp. 3-37** (Work of exceptional relevance).
153. Time Spending and Space Exploring in the Framework of Special Relativity Theory, by Nicholas Ionescu-Pallas and Liviu Sofonea, *Revue Roumaine de Physique*, Tome 25, nr. 3, 1980, pp. 261-265.
154. Conformal Covariance of General Relativity, by Nicholas Ionescu-Pallas and Ioan Gottlib, *Revue Roumaine de Physique*, Tome 25, nr. 3, 1980, pp. 233-244.
155. **Emission of Neutrons from a Hot Deuterium-Deuterium or Deuterium-Tritium Plasma Produced by a Giant Pulse Laser, by Eva Cojocaru and Nicholas Ionescu-Pallas, Revue Roumaine de Physique, Tome 25, nr. 6, 1980, pp. 685-687** (Communication held on 1-st December 1979, at the Laser Research Division of the Institute for Physics and Technology of Radiation Devices, Bucharest).
156. **Infravectors, by Nicholas Ionescu-Pallas, Revue Roumaine de Physique, Tome 25, nr. 8, 1980, pp. 847-864**, (Work dating since about 1970, See in this respect: Proceedings of the XVI-th Congress A.M.P.E.R.E., Bucharest, 1-5 September, 1970, Academic Press, Bucharest, 1971, pp. 272, Edited by Ioan Ursu).
157. New Relationships between Classical Mechanics and Electrodynamics, by Liviu Sofonea and Nicholas Ionescu-Pallas, *Bulletin of the Brașov University, Series C – Mathematics, Physics and Chemistry*, Vol. XXII, 1980, pp. 217-225.
158. **General Relativity and Cosmology (in Romanian) Scientific and Encyclopaedic Press, Bucharest 1980, 632 pages + figures. English Summary Part I: Physical Theory of General Relativity (5 chapters); Part II: Mathematical Theory of the General Relativity (3 chapters); Part III: Post-Einsteinian Extensions of Gravitation Theory (1 Chapter); Part IV: Elements of Cosmology (1 Chapter). Bibliography for each Part Author Index.**

200. The Observer's Cosmology by Nicholas Ionescu-Pallas and Ioan Gottlieb, (in Romanian), Studii și Cercetări de Fizică, Tom 39, nr. 9, 1987, pp. 800-809.

201. The Concept of Oblique Time and the Gravitational Retardation of Light, by Nicholas Ionescu-Pallas and Liviu Sofonea, *Analele Științifice ale Universității Alex. Ioan Cuza, Iași*, Tom XXXIII, s.I b, Fizica, 1987, pp. 67-72.
202. Contributions to the Application of the Schlieren Technique for Determining the Refractive Index Around Moving Bodies in Transparent Media (in Romanian), by Valentin I. Vlad, Nicolae Ionescu-Pallas, Ionel Apostol, Communication to the Scientific Debate "Achievements and Perspectives in the Laser Field and Their Applications in the National Economy", Bucharest-Magurele, 20-21 Oct. 1987.
203. Invariantive Mechanics of Fields I, by Nicholas Ionescu-Pallas and Liviu Sofonea, *Revue Roumaine des Sciences Techniques, Série de Mécanique Appliquée*, Tome 33, nr.1, 1988, pp. 3-26.
204. Milne's Theory and Local Gravitation, by Nicholas Ionescu-Pallas, Ioan Gottlieb and Liviu Sofonea, *Revue Roumaine de Physique*, Tome 33, nrs. 4-6, 1988, pp. 663-666, (Work Dedicated to Prof. Ioan Ursu, on his 60-th Birthday Anniversary).
205. Optical Processing of Information and the Holography (in Romanian) by Valentin I. Vlad, Nicholas Ionescu-Pallas, Dragos Popa and Ionel Apostol, *Studii și Cercetări de Fizică*, Tom 40, nrs. 5-7, 1988, pp. 489-498.
206. Laser Imaging System for Computer Vision (Report), by Valentin I. Vlad, Nicholas Ionescu-Pallas, Dragos Popa, Ionel Apostol, Adriana Vlad, Valeriu Căpățană, (Bucharest), 3-rd International Conference on "Trends in Quantum Electronics", Bucharest, 29 Aug.-3 Sept., 1988, Section VI, (Edited by SPIE, pp. 424-432, Vol. 1033, T.Q.E. - 88).
207. Invariantive Mechanics of Fields II, by Nicholas Ionescu-Pallas and Liviu Sofonea, *Revue Roumaine des Sciences Techniques, Série de Mécanique Appliquée*, Tome 33, nr.2, 1988, pp. 119-134.
208. Contributions to the Formulation of non-Relativistic Quantum Mechanics in Arbitrary Coordinates, by Ioan Gottlib, Nicholas Ionescu-Pallas and Cleopatra Mociutchi, "Studies in Gravitation Theory", Central Institute of Physics Press, Bucharest, 1988, pp. 43-76, (Edited by Ioan Gottlib and Nicholas Ionescu-Pallas).
209. The Gravitational Problem of a Single Body within Invariantive Mechanics (in Romanian), by Nicholas Ionescu-Pallas, *Buletin de Fizică și Chimie*, An X, Vol. 10, 1986, pp. 1-7. English version in: *Analele Științifice ale Universității Alex. Ioan Cuza, Iași*, Tom XXXIV, s.I b, Fizică, 1988, pp. 63-69 (together with Liviu Sofonea).
210. Hermann von Helmholtz – A forerunner of Relativity Theory? (in Romanian), *Studii și Cercetări de Fizică*, Tom 40, nr. 8, 1988, pp. 661-680.

- 2 -
211. Accurate Mathematical Methods for Smoothing out Empirical Functions and Performing Direct and Inverse Abel Transforms, by Nicholas Ionescu-Pallas, in the book "Scientific Research of the Institute of Atomic Physics" (Some Recent Problems), Central Institute of Physics Press, Bucharest, 1988, pp. 64-88.
212. Matter Tensor in Scalar-Tensorial Theories of Gravitation, by Harry Hafner and Nicholas Ionescu-Pallas, Canadian Journal of Physics, Vol. 67, 1989, (January), pp. 106-114, (Received Sept. 8, 1987).
213. Remarkable Simple Relativistic Metrics and Local Experimental Tests of Gravitational Effects by Nicholas Ionescu-Pallas and Liviu Sofonea, Revue Roumaine des Sciences Techniques, Série de Mécanique Appliquée, Tome 34, nr.5, 1989, pp. 425-431.
214. Zernike – Polynomials Smoothing of Optical Images by a Convolution Procedure, by F(lorian) Bociort, Nicholas Ionescu-Pallas, and Valentin I. Vlad, Revue Roumaine de Physique, Tome 34, nrs. 7-9, 1989, pp. 951-959 + figures.
215. A Formal Mathematical Paradox in the General Relativity Theory, by Nicholas Ionescu-Pallas, Ioan Gottlieb and Liviu Sofonea, Proceedings of the 12-th Intern. Conf. on general Relativity Theory, Boulder University, Colorado, USA, 1989.
216. Local Smoothing of the Functions depending on one, two or three Cartesian Variables, by Nicholas Ionescu-Pallas, in the book: "Scientific Research and Technological Engineering in the Field of Lasers", ICEFIZ – IFTAR, 1989, pp. 9-13. (In the same book (pp. 39-51), see also: "Using Computational Methods for Processing, Displaying and Recording the Refractive Index Profile, by Nicholas Ionescu-Pallas, Valentin I. Vlad, Ionel Apostol, Florian Bociort).
217. Einstein's Field Equations in a Flat Universe and Gravitational Energy Distribution, by Ioan Gottlieb and Nicholas Ionescu-Pallas, Revue Roumaine de Physique, Tome 35, nr. 1, 1990, pp. 25-45.
218. Ruling-out some Feigned Contradictions of the Special Relativity Theory (in Romanian), by Nicholas Ionescu-Pallas, Studii și Cercetări de Fizică, Tom 42, nr. 1, 1990, pp. 63-115.
219. Elements of Quantum Mechanics (Fascicle 6 of the Course "Laser Physics") (in Romanian) by Nicholas Ionescu-Pallas, Bucharest, Institute of Atomic Physics Press, 1990, 401 pages, (Forwarded for Printing 1985), (Contents:
Chap. I Classical Theory of the Hydrogen Atom;
Chap. II Discovering the Wave Mechanics;
Chap. III Extending the Undulatory Mechanics;

- 278
- Chap. IV Angular Momentum Theory;**
Chap. V Discovering the Matrix Mechanics;
Chap. VI Extending the Matrix Mechanics;
Chap. VII Going over from Undulatory to Matrix Mechanics and inversely;
Chap. VIII Quantum Theory of the Hydrogen Atom;
Chap. IX Factorization Method;
Chap. X Hydrogen Atom and Its Inner Symmetries;
Chap. XI Classical Concept of Spin;
Chap. XII Relativistic Wave Equation;
Chap. XIII Perturbation Theory.

25

Papers elaborated after the putting on the retired list of Mr. Nicholas Ionescu-Pallas

VIII 1991 – 1395

220. Relevant Applications of the Dimensional Analysis, Physical and Historical Aspects, by Liviu Sofonea and Nicholas Ionescu-Pallas, Anuario Científico 1991 del Grupo de Trabajo de Análisis Dimensional, Actas del Congreso, "Julio Placios y la Física de su Tiempo", Vol. 2, 1991, pp. 119-122, Universidad Politécnica de Madrid.
221. Accurate Refractive Index Measurements Using Computerized Schlieren and Focusing Methods by Nicholas Ionescu-Pallas, Valentin I. Vlad, Ionel Apostol and Florian Bociort, Revue Roumaine de Physique, Tome 35, nr. 10, 1991, pp. 915-922.
222. Gauging and Spin Particle Motion in Gravitational Field, by Nicholas Ionescu-Pallas, University of Timișoara, Faculty of Physics, Theoretical Physics, Preprint Number 5, 1992, (9 pages text + short biography + author's portrait).
223. Vectorial Theory of Gravitation I, by Nicholas Ionescu-Pallas, Romanian Reports in Physics, Bucharest, Vol. 45, nr. 1, 1993, pp. 19-52.
224. Exact Spherical Solutions in Einstein's Gravitostatics, by Nicholas Ionescu-Pallas, Communication at the III-rd National Conference on Gravitation and Cosmology, Bistritza, Romania, 25-29-th May 1993, (Proceedings of the Works). See also the V-th Conf. In Bistritza, on 22-26-th May 1995.
225. Geometrical Aspects of a Generally-Relativistic Model of Finite Range Gravitation, by Nicholas Ionescu-Pallas and Liviu Sofonea, Proceedings of the 23-rd Conference on Geometry and Topology, Timișoara University, 1993, pp. 80-87.
226. The Fine and Hyperfine Structure of Fermionic Levels in Gravitational Field, by Alex Gaină and Nicholas Ionescu-Pallas, Communication at the XVIII-th Congress of the Romanian-American Academy of Sciences and Arts, held jointly with the Academy of the Republic Moldova and entitled "Moldova-Scientific and Cultural Ways Open Towards West", Chișinău, 1993, 15th July, Section of Theoretical Physics, Institute of Applied Physics.
227. Cosmological Aspects of the Classical Mechanics, by Nicholas Ionescu-Pallas, (Communication, beyond the program, on 15-th July, 1993, at Chișinău, Manuscriptum of 27 pages + A portrait of Octav Onicescu).
228. Solar System Test for the Existence of the Gravitational Waves, by Nicholas Ionescu-Pallas, Marius-Ioan Piso and Silvia Sainar, Romanian Astronomical Journal, Vol. 4, nr. 1, 1994, pp. 75-86.

229. Linear Bimetric Gravitation Theory, by Marius-Ioan Piso, Nicholas Ionescu-Pallas and Silvia Onofrei (b. Sainar), Bucharest, Institute of Space Sciences, GRL-04-94, July, 1994, 8 pages, e-Print Archive: gr-qc/9407017.
230. A New Summation Formula, by Nicholas Ionescu-Pallas. Western University of Timisoara, Faculty of Physics, Theoretical Physics, Preprint 1, 1995, 6 pages. (Received February 1995).
231. Static Solutions for a 2+1 Dimensional-like Star, by Nicholas Ionescu-Pallas, Silvia Onofrei and Marius Piso, 14-th International Conference on General Relativity and Gravitation, Florence, Italy, August 6-12, 1995 (Workshop A1 - Exact Solutions and Their Interpretations).

24

IX 1996 - 2000

232. A Covariant Approach to the Gravitational Refractive Index, por Ioan Simaciu y Nicholas Ionescu-Pallas, *Anales de Fisica (Madrid)*, Vol. 92, nr. 2, 1996, pp. 66-70.
233. The Antiresonances and the Spectrum of Box-Shaped Cavities by Valentin I. Vlad and Nicholas Ionescu-Pallas, *Romanian Reports in Physics*, Vol. 48, nrs. 1-2, 1996, pp. 3-25.
234. Refractive Index Determination in Axially Symmetric Optical Inhomogeneous Media, by Nicholas Ionescu-Pallas, Valentin I. Vlad and Florian Bociort, *Romanian Reports in Physics*, Vol. 48, nrs. 3-4, 1996, pp. 151-164.
235. Vectorial Theory of Gravitation II (Obtaining the Gauge Invariance), by Nicholas Ionescu-Pallas *Romanian Reports in Physics*, Vol. 48, nrs. 3-4, 1996, pp. 255-286.
236. New Treatment of the Focusing Method and Tomography of the Refractive Index Distribution of Inhomogeneous Optical Components, Valentin I. Vlad, Nicholas Ionescu-Pallas and Florian Bociort, *Optical Engineering*, Vol. 35, nr. 5, May 1996, pp. 1305-1310, (with short biographies and portraits of the authors).
237. The Lagrange Formalism Used in the Modelling of Finite Gravitation, by Nicholas Ionescu-Pallas and Liviu Sofonea, in the book "Lagrange and Finsler Geometry", Edited by P.L. Antonelli and R. Miron, Kluwer Academic Publishers, Netherland, 1996, pp. 217-231.
238. The Radiation Spectrum and the Thermodynamics of Quantum Cubic Cavities, by Valentin I. Vlad and Nicholas Ionescu-Pallas, Preprint International Centre for Theoretical Physics, Miramare-Trieste, IC/97/28, 1997, 18 pages (See also: ROMOPTO'97, 5-th Cenf. on Optics, Programme Sept. 9-12, III, 1-4, p. 16. See again: Comemorative Session dedicated to the late Eugen Bădărău, Faculty of Physics, Magurele, 1997).
239. Fine Structure and Energy Levels of an Electron in Both Coulombian and Gravitational Field, by Alex Găină and Nicholas Ionescu-Pallas, *Romanian Reports in Physics*, Vol. 49, nrs. 8-9-10, 1997, pp. 729-735.
240. Discrete Debye Phonon Spectrum and the Heat Capacity of Cubic Nano-Structures at low Temperatures, by Valentin I. Vlad and Nicholas Ionescu-Pallas, *Romanian Reports in Physics*, Vol. 49, nrs. 8-9-10, 1997, pp. 705-722.
241. Discrete Phonon Spectrum and the Phonon Thermodynamic Functions in the Quantum Box at Low Temperatures, Preprint IC/98/24, Miramare-Trieste, 1998, by Valentin I. Vlad and Nicholas Ionescu-Pallas, 15 pages.

- 28 -
242. **Variational and Conservative Principles in Rosen's Theory of Gravitation,** by Ion Dobrescu and Nicholas Ionescu-Pallas, (Communication at the Symposium on Theoretical Physics in Bistritza, Romania, June 1998), Balkan Journal of Geometry and Its Applications, Vol. 4, nr. 1, 1999, pp. 31-43.
243. **The Radiation Spectrum and the Thermodynamics of the Quantum Cubic Cavities (Invited Paper, ROMOPTO 1997, Bucharest),** by Valentin I. Vlad and Nicholas Ionescu-Pallas, Proc. SPIE, Vol. 3405, 1998, pp. 375-383.
244. Photon in a Spherical Cavity, by Nicholas Ionescu-Pallas and Valentin I. Vlad, Romanian Reports in Physics, Vol. 51, nrs. 7-10, 1999, pp. 631-648.
245. Discrete Planck Spectrum of a Spherical Cavity, by Valentin I. Vlad and Nicholas Ionescu-Pallas, IC/99/27, Miramare-Trieste, March 1999,
246. Contributions to the Achievement of a Relativistic Theory in which Gravitation is Represented by 4-Vectors. (Mathematical, Mechanical, Physical, Historical and Epistemological Aspects) , by Nicholas Ionescu-Pallas and Liviu Sofonea, Jubiliary Session: 50 years of the Institute of Solid Mechanics, Romanian Academy, Bucharest, Nov. 25-26, 1999, SISOM'99, 14 pages.
247. A Mathematical Model for the Geometrizing of a Thermal Dilation Phenomenon, by Ovidiu Racoveanu and Nicholas Ionescu-Pallas, Proc. Roum. Acad., Series A, Vol. 1, nr. 2, 2000, pp. 83-86.
248. **The Radiation of the Double Quantized Cubic Cavities,** by Valentin I. Vlad and Nicholas Ionescu-Pallas, Fortschritte der Physik, Vol. 48, nrs. 5-7, 2000, pp. 657-663.
249. Discrete Planck Spectra, ICTP Trieste, Preprint Nr. IC/2000/154, by Valentin I. Vlad and Nicholas Ionescu-Pallas.
- X 2001 - ?
250. Discrete Bose-Einstein Spectra, ICTP Trieste, Preprint Nr. IC/2001/14, by Valentin I. Vlad and Nicholas Ionescu-Pallas.
251. **Discrete Bose-Einstein System in a Box with Low Adiabatic Invariants,** by Valentin I. Vlad and Nicholas Ionescu-Pallas, Conference on Quantum Interferometry IV, ICTP Trieste, March 2002, 12 pages. See also: ICTP Trieste, Preprint Nr. IC/2002/13.
252. **Reflections Concerning the Genuine Origin of Gravitation,** Roumanian Reports in physics, Vol. 55, nr. 1, 2003, pp. 7-48.
